PROFILE

I am a dedicated Laravel developer with a diploma in Laravel from career Institute. I have hands-on experience from academic projects where I built dynamic websites and web applications. Known for my strong problem-solving skills and quick learning ability, I am committed to continuous improvement and applying my skills to real-world projects. I am eager to learn and contribute to impactful projects and grow as a developer.

PROJECT

Crud Application with Laravel 10

- Create: Users can add tasks with a title and optional description.
2. Read: Display all tasks with their details (title, description, and status) in a list format.
 3. Update: Allow users to edit a task's title, description, or completion status.
 4. Delete: Enable users to delete tasks.
 5. Mark as Completed: Add functionality to mark tasks as completed or incomplete.

Crud Application with image uploader in Laravel

The application will manage a collection of records (e.g., products, posts, or profiles). Each record will include details like a name, description, and an uploaded image. Users can create, read, update, and delete records and show data. Uploaded images will be stored on the server and displayed on the frontend.
